## Petrol System Clean & Protect

**Reaction time**  
works during operation

**Application field**  
all petrol engines

**Consumption**  
300 ml for 60 l petrol // resp. 0,5% of the filling content

**Application interval**  
every 6 months

**Application** Add every 6 months to the fuel tank before filling up. Recommended for all petrol engines. Especially in case of cold start problems or bad exhaust values. Treats 60 L of petrol. For larger tank volumes add 0,5% of the filling content. Product works during operation.  
 Attention: Cleaning fluid – not a fuel substitute!

**Description** GAT Petrol System Clean & Protect ensures effective cleaning of the entire fuel system from the tank to the combustion chamber. Removes operationally caused contamination and prevents formation of new deposits.

**Benefits** Only a clean fuel system guarantees clean and powerful combustion and efficient engine performance! Easy application without extra effort. Reduces the fuel consumption and optimizes the exhaust gas emission values. Protects from corrosion and increases the operational reliability.

**PU** 24 x 300 ml

**Packing sizes** 300 ml // Art.nr. 62003  
 1 l // Art.nr. 62061  
 5 L // Art.nr. 62046  
 other sizes available on request
