

Diesel System Cleaner Plus

-  **Reaction time**
works during operation
-  **Application field**
all diesel engines
-  **Consumption**
300 ml for 80 l diesel // or 70 ml per 10 liter
-  **Application interval**
every 6 months

Application Add to the fuel tank before filling up. One can (300 ml) sufficient for up to 80 L diesel. For larger capacities add 70 ml per 10 liter of fuel. Use GAT Diesel System Cleaner Plus at every service interval but at least once a year. Product works during operation.
Attention: Cleaning fluid – not a fuel substitute!

Description GAT Diesel System Cleaner Plus is a high performance product for use in all diesel engines, particularly developed for high pressure direct injection diesel engines with common rail technology or pump injectors. Especially recommended for extended service intervals. Reliably removes operationally caused contamination in the whole fuel system from the tank to the combustion chamber. Absorbs and efficiently removes moisture from the diesel system and ensures effective protection of the high pressure pump. Provides an optimal fuel atomization and lasting lubrication and protection of all fuel carrying parts. Suitable for diesel particulate filters.

Benefits Increased compression, improved engine performance, reduced fuel consumption and less exhaust emissions.

PU 24 x 300 ml

Packing sizes 300 ml // Art.nr. 62019
1 L // Art.nr. 62064
5 L // Art.nr. 62049
// other sizes available on request
