

CAT Clean

Reaction time
works during operation

Application field
all petrol /diesel engines and hybrids

Consumption
300 ml for 60 - 80 l fuel // 0,5% of the filling content

Application interval
every 3 months

Application Add every 3 months to the fuel tank before filling up. Product works during operation, sufficient for up to 80 L fuel. For larger tank volumes add 0,5% of the filling content.
Attention: Cleaning fluid – no fuel replacement!

Description GAT CATClean is a new decarbonizing technology, specially developed to exceed the most recent environmental standards. CATClean dissolves resin, gum and carbon deposits in the entire fuel system, oxygen sensor/lambda probe and catalytic converter. For petrol, diesel and even hybrid engines. Ideal for 4-stroke engines.

Benefits Prevents heavy contamination if its used regularly, increases fuel efficiency, optimized engine performance, ensures the proper function of the catalytic converter/oxygen sensor.
